Comment: Dear Partner,

We hope this email finds you well. I'm Mikhail from Ratehawk, and I'm reaching you out regarding the upcoming integration development.
Please be informed that the API Key for sandbox enviroment has been issued.
The API key - {**}44{**}:{**}2ef38047-b92b-42a8-ae09-f8b86ea319ed{**}, where:

44 - API key ID. Use it as an HTTP Basic Authentication username.
2ef38047-b92b-42a8-ae09-f8b86ea319ed - API key access token. Use it as an HTTP Basic Authentication password.

Please find below the action plan to go live:
1. {**}Integration Stage{**}, where you develop the integration itself. During this stage, please avail of this opportunity to ask as much questions as possible regarding integration logic to us. We are glad to assist!
2. {**}Certification Stage{**}, where we check the implementation of the integration and if that's the case ask for a favour to make necessary adjustments.
Please note that certification happens over emails as we value quality checking and give time to partners to adjust their development when it is needed.
3. Finally we are issuing your Production Keys with negotiated timeouts.

I'm attaching our Documentation, Integration Guidelines, Best Practices, Pre-Certification Checklist.
Please do let me know if it is possible to implement technically Prebook on your end, and I will be happy to assist you with more elaborated information.

The documentation: https://docs.emergingtravel.com/docs/sandbox/

The integration guidelines: https://docs.emergingtravel.com/docs/sandbox/sandbox-integration-guide/

Best Practices: https://docs.emergingtravel.com/docs/sandbox/sandbox-best-practices-for-apiv3/

Pre-Certification Checklist: https://docs.google.com/document/d/1TWCBnOQ1GygM-5R8wHJG4kLvf_READL8cUoCi3tWsrE/edit?usp=sharing

Throughout this journey we will remain at your disposal to assist you with any questions or concerns. Please contact us at apisupport@ratehawk.com

Shall you have any questions or concerns, please let us know and we will be more than happy to assist!

Mikhail
